

Jacob Hebert

Industrial Engineering

I am currently a sophomore studying Industrial Engineering at the University of Arkansas. I am also an active member and current Awards chair for the Xi Chapter of Kappa Sigma Fraternity. I am currently seeking an internship for the summer of 2025, and would like to have experience with writing code and hands on programming of machines. I am very motivated, an excellent communicator, and I never back down from a challenge.

Experience

During the summer of 2024 I worked as an Engineering Intern for JEVAC Machine. While there I did everything from hands-on maintenance with machines to shadowing engineers while they recalibrated and coded machines in the factory. It was a very eye-opening experience for me as I discovered that I love working with programming, and plan to pursue something similar in my career.

During Highschool I started my own Lawn Care service in my hometown. Hebert Lawn Care grew outside of lawns including doing flowerbed work and gutter maintenance. This experience was a strong building point for me as I improved my work effort and determination.

Education

2019-2023 Magnolia Highschool

4.1 GPA

2023-Current University of Arkansas

Studying Industrial Engineering and Analytic Operations

Skills

Communication

Teamwork

Hardworking

Motivated

Basic Understanding of Excel and JAVA
